

Stainless Steel Polish

High Performance Metal Polish

KITCHEN ANCILLARY

QUICK INFO

- Powerful solvent based stainless steel cleaner, polish, and protectant
- Unique hydrocarbon solvents remove grease, film, and water spots
- Leaves a durable protective coating to prevent smudging and soiling
- Use on stainless steel equipment or fixtures, laminated plastic, porcelain, or enamel surfaces
- Easy ready-to-use spray and wipe application

PRODUCT DATA

Odor: Solvent

Form: Liquid

Color: Clear

pH: 6.0-8.0

Specific Gravity: 0.70-0.90

Flash Point: 132.8°F

Storage: Store in original container in cool, dry place away from incompatible materials.

Ingredients: Mineral oil, napthalated hydrocarbon

DIRECTIONS FOR USE

Ready-to-use spray and wipe formulation. Apply protectant and polish solution directly onto soft, damp cloth and wipe surface to remove soil and stains. Leaves behind a protective, lustrous coating. For best results, wipe in the direction of the stainless steel grain. Avoid contact with painted, wood, or rubber surfaces.

FULL PRODUCT DESCRIPTION

Auto-Chlor System Stainless Steel Polish is a solvent based cleaner, polish, and protector for commercial stainless steel fixtures and equipment. The unique hydrocarbon solvents remove grease, film, and water spots. Stainless Steel Polish eliminates dull, streaked finishes and leaves a durable protective coating that helps prevent smudging and soiling. Safe for use on other surfaces such as laminated plastic, counters, porcelain, and enamel.
